General engine features. The B-series features engine bores machined directly into the block (rather than the wet liners used on earlier Cummins engines). It was also set apart by the use of a shallow one-piece head, requiring closer tolerances than in other Cummins products. The engine was first manufactured in Rocky Mount, North

I was really considering (before the announcement today) looking at the A7 IV as a possible B-Camera for my A1. I currently have the A7sIII as my B-Camera because I wanted to keep consistent menu systems, and because most of the photography work I do goes to social media and medium size print and the rest is video work for me.

Was hoping the A7 IV would be my B-Cam for the A1, but not ...
