The broken windows theory is a criminological theory that states that visible signs of crime, anti-social behavior, and civil disorder create an urban environment that encourages further crime and disorder, including serious crimes. The theory suggests that policing methods that target minor crimes, such as vandalism, loitering, public drinking, jaywalking and fare evasion, help to create an ...

The field of sociology itself is a relatively new discipline and so, by extension, is the field of sociological theory. Both date back to the 18th and 19th centuries, periods of drastic social change, where societies would begin to see, for example, the emergence of industrialization, urbanization, democracy, and early capitalism, provoking (particularly Western) thinkers to start

Drawing on criminological methods and theories, forensic criminologists can make linkages between general social science research findings and specific case questions. Where appropriate, judge and jurors may then apply criminological knowledge, methods, and theories to the facts of the case at hand.
