How to snap to guides in Illustrator CS4, CS5 and CS5.5

I am having a lot of issues with Illustrator CC 2014 and the Smart Guides. Every time I try and snap one object to another or snap an object to a guide, the object snaps either above or below the guide/object but never snaps correctly. This also happens when I am zoomed in all the way! I do not have align to pixel grid or snap to grid turned on.

InDesign CS3 provides horizontal and vertical rulers and ruler guides to help you position and align text, objects, or graphics more precisely. As your needs change, you can choose to display, hide, move, and remove the rulers and ruler guides. For additional consistency and alignment, objects positioned near a guide can be "snapped to" the guide.

In InDesign, object boundaries DO snap to guides. You can grab a picture frame anywhere and drag it — and you'll see the boundary of the frame snap to guides. Because a typical Illustrator document contains many more objects than an InDesign document, you might think that having objects snap in Illustrator might not be wanted.
