A dream is a succession of images, ideas, emotions, and sensations that usually occur involuntarily in the mind during certain stages of sleep. Humans spend about two hours dreaming per night, and each dream lasts around 5 to 20 minutes. The content and function of dreams have been a topic of scientific, philosophical and religious interest throughout recorded history.

No society that has a disdain for life is going to thrive for long. For decades, our young people have been trained to view children as a “burden” and marriage as something that should be put off for as long as possible. If you doubt this, just spend some time watching the movies and television shows that they are watching.
