Review of Walls Built on Sand: Migration, Exclusion, and ...

Seawalls are structures built of concrete, wood, steel or boulders that run parallel to the beach at the land/water interface. They may also be called bulkheads or revetments. They are designed to protect structures by stopping the natural movement of sand by the waves. If the walls are maintained they may hold back the ocean temporarily.

Shoreline Structures - Beachpedia

In 2015, borders and walls seemed to burst onto the global agenda in the context of migration and halting spontaneous movement. Countries as diverse as Austria, Bulgaria, Estonia, Hungary, Kenya, Saudi Arabia, and Tunisia announced or began work on new border barriers.

Borders and Walls: Do Barriers Deter Unauthorized Migration?

When standing today at Hadrian's Wall in northern England, everything appears indistinguishably affluent and serene on both sides. It was not nearly as calm some 1,900 years ago. In A.D. 122, the
