Who Shall Succeed? by James F. Eder - Cambridge Core
The cultural and even physical extinction of the world's remaining tribal people is a disturbing phenomenon of our time. In his study of the Batak of the Philippines, James Eder explores the adaptive limits of small human populations facing the ecological changes, social stresses, and cultural disruptions attending incorporation into broader socioeconomic systems.

SHIFTING CULTIVATION AND ENVIRONMENTAL CHANGE
JAMES F. EDER forests, both commercially and biotically, will be gone by the end of the century (see, e.g., Bee, 1987). There have been two major causes of this destruction. One has been the relentless practice of destructive logging. Following independence, the new government viewed exploitation of the country's forest reserves as a
