The manual clearly and simply cleared up any confusion and myths related to the rifle, like being self-cleaning, while its Vietnam-related content helped troops deal with Vietnam-specific issues. The M16A1, with the help of the field manual, significantly reduced malfunctions and matured the M16 into a solid rifle.

In this regard, the SAW filled the void created by the retirement of the Browning Automatic Rifle (BAR) during the 1950s because interim automatic weapons (e.g. M-14E2/M16A1) had failed as viable "base of fire" weapons. Early in the SAW's fielding, the Army identified the need for a Product Improvement Program (PIP) to enhance the weapon.
